THE SCARECROW™

REAL NAME: Jonathan Crane
HEIGHT: 49 mm (in hat)
EYES: Red **HAIR:** Straw
FIRST APPEARANCE: LEGO Batman Set #7785, August 2006

DESCRIPTION: Three of Gotham City's most fearsome villains!

HISTORY: Obsessed with puzzles, **The Riddler** embraced a life of crime, taunting the police with cryptic clues to his next construction-based misdeed. Scientific experiments transformed **Poison Ivy** into a vengeful human/plant hybrid with a toxic touch and control over all plastic vegetation. And **The Scarecrow**, a crazed professor of psychology, uses his "fear gas" to spread screams among the mini-figures of **Gotham City**. When captured by **Batman**, these evil-doers are taken not to jail, but to **Arkham Asylum**, Gotham's institute for the criminally insane. At Arkham, the bricks echo with the shrieks and laughter of crazed criminals, and even the ambulance comes with restraints. Special cells have been built to hold each inmate...but that doesn't stop them from escaping with alarming regularity! Fortunately, heroes like **Batman** and **Nightwing** are always there to lock them away again.

STATUS: All three are safely contained in **Arkham Asylum**...for now!
